THEATRES

INTERNATIONAL

19 FEB–8 MARCH 2015

This exhibition of contemporary video art examines places of geopolitical conflict and contention – areas of divide, borders and places of violent exchange.

Drawing on works produced in current sites of international unrest, *Theatres* invites you to reflect on the relationship between the medium of video, political conflict and theatrical spectacle.

Featuring works by leading Australian and international artists, *Theatres* is presented across two venues.
